Professional Summary

A highly motivated software developer with a solid background in Java and SQL, with hands-on experience in developing full-stack applications. Adept at working with various frameworks and passionate about building efficient and scalable solutions.

Experience

Assetrak Solutions Private Limited (Internship)
Technical Sponsorship Program | October 2023 – December 2023
• Developed and implemented 'Review Tagging Page' and 'Favourites Panel,' improving user interaction by 30%.
• Gained hands-on experience in Angular development and real-time project environments.

Technical Skill Set

Core Java

• Strong understanding of Object-Oriented Programming (OOP) concepts.
• Skilled in Exception Handling, Java Collections Framework (List, Map, Set, Queue).

Advanced Java

• Proficient in JDBC, Servlets, JSP, and Hibernate with JPA.

SQL

• Strong understanding of database design, writing complex queries, and optimization techniques.

Other Tools

• XAMPP, MySQL, Eclipse IDE, VS Code.

Certifications

• **Full Stack Java Development (QSpiders)**
  - Comprehensive training in JDBC, Hibernate.

• **Employability Skills (Rubicon)**
  - Gained expertise in communication, teamwork, and problem-solving techniques for better collaboration in software projects.

Publications

- Entrepreneurship and AI
- Inventory Management in Pharmaceutical Industry

Projects

VisionXchange (Online Optical Store)
Technologies: JavaScript, HTML, CSS | Server: XAMPP | Database: MySQL
• Designed an online optical store with efficient product search and filtering functionalities, improving user experience.
• Integrated real-time inventory updates with MySQL database, ensuring seamless stock management.
• Increased customer engagement by 20% by optimizing site performance and enhancing UI.

MediTrack Pro (Pharmaceutical Management GUI)
Technologies: Java (JDBC, JFrame, AWT) | Server: XAMPP | Database: MySQL
• Developed a Java-based GUI for managing pharmaceutical inventory, improving operational efficiency by 15%.
• Automated reporting and invoicing processes for both human and veterinary medicines, reducing errors by 10%.
• Integrated temperature tracking for sensitive vaccines, enhancing compliance with industry standards.

Education

- 2024 | Trinity Academy of Engineering Pune | MCA |74 %
- 2022 | S. M. Joshi College | B. Com |Graduation |83.28 %
- 2019 | S. M. Joshi College | 12th |73.38 %
- 2017 | Bhekraimata M. Vidhyalaya|10th | 79.60 %
